(the "Company") is organized and operates as a real estate investment trust ("REIT") as determined under Section 856(a). The Company made quarterly distributions to its shareholders as required by Section 857(a)(1). The total distributions of cash made by the Company to its shareholders exceeded the amount of its current year and accumulated Earnings and Profits determined in accordance with Section 312, as modified by Section 857(d). In January 2024, the Company determined that a portion of the distributions paid represented a return of capital. The percentage of the return of capital will be reported to shareholders of the Company's common stock via Form 1099-DIV.

See attached schedule for details of quarterly distribution payments.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ The calculation for the return of capital portion of the distributions that reduced the tax basis of the common stock held by the Company shareholders during 2023 was determined based on the total amount of distributions less the amount of the corporation's current Earnings and Profits, determined in accordance with Section 312, as modified by Section 857(d).
